

Datasheet Narwhal SV-480 diesel outboard

The rescue boat SV-480 lay out have been designed and approved in order to allow navigation by using an adapted driving position, as well as navigation with traditional outboard engine with tiller.

Approved with 50 hp diesel engine, the driving position will allow a more comfortable boat operation, improving the reaction time in case of emergency.

There is room enough on the deck to place the approved stretcher – mandatory installation- for injured person transportation. Besides, the boat

has transverse seats for all the passengers and a bow locker to storage the necessary equipment.
